Mills)	Crown Lengthening Procedures (Hale)	Review of Irrigant Solution in Non-surgical Endodontics (Juriga)	Two Faces of Oral Fibrosarcoma (Bates) Rostral Mandibulectomy Tx of SCC in a German Shepherd Dog (Hall)	Tele-Dentistry: Saving pets' smiles over the internet (Camilo)	Dental Radiology for the Dental Technician (Niemic)
	Choosing a magnification system (Bates)		Rotary Endodontics: Using LitghtSpeed, Endovac and Simplifil (Ross/ & Boyd)			
4:10– 5pm	Ask the Experts- Oral Pathology & Periodontology (Niemic, Woodward, Rochette, Lewis)	Surgical Treatment of Gingival Enlargements (Hale)	Rotary Endodontics: Using LitghtSpeed, Endovac and Simplifil Continued (Ross & Boyd)	Chronic Birdshot Nasal Foreign Body in a Cat (Taney) Unusual Presentation of a Chronic Periapical Abscess in a Dog (Walker) Nasolacrimal(Anthony)	Doing Referrals Right (Bellows)	Troubleshooting Dental Radiology (Istace)

2009 VDF Program Grid – Saturday Lectures

Time	Fundamentals	Intermediate	Advanced	Original Clinical Research	Equine	Case Report Panel Discussion	Technician
8:00– 8:50am	Complications of Extractions and How to Deal with Them (Reiter)	Endodontic Complications : Avoidance and Repair (Niemic)	Clinical Approaches to Difficult Oral Surgical Cases (Luskin/Kressin)	TMPS Weighted Scoring System in Cats (Harvey)	Evidence Based Equine Dentistry- What is the Current Sage of Knowledge? (Reiswig)		Whys & Hows of Prosthodontic Therapy (Holzman)
				Gingival Mast Cells Adjacent to FRL (Arzi)	A Survey of Equine Oral Pathology (Anthony)		
9:00am – 9:50am	Comparison of Radiographic Technologies (Hale)	Surgical Endodontics (Niemic)	Clinical Approaches to Difficult Oral Surgical Cases (Luskin/Kressin)	Tissue Repair Bioscaffold: A Review of Clinical Outcomes (Woods)	Llama and Alpaca Dental Anatomy and Exodontia (Rawlinson)		Malocclusions & Orthodontic Therapy (Holzman)
Break in Exhibit Hall							
10:20am – 11:10am	Radiographic Interpretation I (Niemic, Woodward)	Endodontic Case Evaluation & Treatment Planning (Eisner)	Dental Consideration when Performing Oral Oncologic Surgery (Smith)	T-Cell Receptor Peptide Vaccine for Feline Stomatitis (Woods)	Equine Odontogenic Tumors (Rawlinson)		Maintenance of Dental Equipment & Instruments (Miller)
11:10am – 12:00pm	Radiographic Interpretation II (DuPont, DeBowes, Woodward)	Endodontic Complications (Eisner)	Surgical Mgmt of Acute & Chronic Oronasal Communication (Smith)		The Equine Pulp – It's Alive! (Niederman & Klugh)		Ultrasonic Scaling: A Review of Equipment Techniques (Miller)
12–1pm	Lunch In Exhibit Hall						

Saturday Lectures Continued

1:00pm – 1:50pm	Basic Canine Extractions (Hall)	Calming Techniques for the Consult (Cebuliak)	Maxillofacial Trauma Management (Taney)	Success Rates of Root Canal Therapy (Niemiec)	Equine Dental Radiography: Projections, Positioning, Labeling & Reviewing (Klugh)		The Dental Experience: Admission Through Dismissal (Niederberger)
				Revascularization of Immature Permanent Canine Teeth with Experimentally Induce Pulp Necrosis: A Pilot Study in the Dog (Baratt)	A Case Based Review of the Diagnostic Imaging of the Equine Incisors and Canine Teeth (Galloway)		
2:00pm – 2:50pm	Extractions in Cats (Klima)	Ask the Experts: Endodontics, Prosthodontics, Restoratives (Niemiec & Visser)	Piezosurgery: Technology, Principles & Clinical Application in Veterinary Dentistry (Bar-Am)	Evaluation of Extraction Sites with Treated with Osteoconductive & Osteoinductive Materials Compared to Untreated Sites in Dogs (Bonner)	A Case Based Review of the Diagnostic Imaging of the Maxillary Cheek Teeth & Sinuses (Baratt)		Veterinary Dentistry in the Puppy & Kitten (Stepaniuk)
Break in Exhibit Hall							
3:20pm – 4:10pm	Dental Radiology Simplified (Niemiec/ Woodward)	Canine Juvenile Jaw Fractures (Snyder)	Crowns: From Preparation to Cementation (Hall)	Oral Tumors of Dogs in South Africa (Steenkamp)	A Case Based Review - Diagnostic Imaging of the Mandibular Cheek Teeth (Earley)	Writing and Publishing Case Reports (Bannon, Legendre, Smith, Manfra, Matson, Queck)	Pocket Pet Dentistry for Veterinary Technicians (Istace)
				Incidence of Canine Odontogenic Tumors (Fiani)	Radiographic Imaging of the Temporomandibular Joint: The Dosoventral Oblique (Galloway)		
4:10pm – 5:00pm	Ask the Experts- Radiology and Oral Surgery (Niemiec, Woodward, Rochette, Lewis)	Management of Dental Trauma (Smithson)	How are Crowns Made? (Hall)	Feline Oral Inflammatory Polyps (Okuda and Lyon)			Feline Radiology: Full Mouth Series Made Easy (Juriga)

2009 VDF Program Grid – Sunday Lectures

Time	Fundamentals	Advanced	Brief Clinical Reports	Marketing/Management	Technician	Specialist-in-Training
8:00am – 8:50am	Juvenile Dentistry Case Discussion (Eisner)	Chronic Maxillary Osteomyelitis in a Dog and Two Cats (Hoffman)	LightSpeed Endodontics in a Red Panda (Hall) Repair of a Gingival Cleft and Alveolar Dehiscence (Bates)	Ten Mistakes That Will Sabotage Success (C. Eisner)	Basic Anatomy (Perrone)	S.I.T. Radiology (Prerequisite to Lab) (M. Roy)
9:00am – 9:50am	Diagnostic Approach to Oral Masses (Blazejewski)	Pedodontics (Surgeon)	OraMEND: Extraction Site Repair in Feline Stomatitis Using a Nonimmunogenic Bioscaffold (Anthony)	Tax Planning for the Veterinary Practice (C. Eisner)	Regional Anesthesia for Oral Procedures (Force)	
	Dentigerous Cysts (Hale)		CMO (Anothy) Veterinary Forensics: Canine Bite Wounds to Humans (Colmery)			
Break						
10:20am – 11:10am	Introducing Restorative Dentistry to Your Practice (Lantz)	Clinical Experience with the PetAlign® System for Orthodontic Treatment in Dogs (Carmichael)	A Case Treatment of Extreme Enamel Hypoplasia (E. Eisner) Ocularal Evaluation and Tx of 11 month old French Bulldog (E. Eisner) Planning and Tx of a Year-Long, Multi-Staged Orthodontic Case (E. Eisner) New Laser Techniques in Veterinary Dentistry (Klarsfield)	Tax Planning for the Individual (C. Eisner)	Oral Trauma (Reiter)	S.I.T. Radiology (Continued) (Prerequisite to Lab) (M. Roy)

Sunday Lectures Continued

Time	Fundamentals	Advanced	Brief Clinical Reports	Marketing/Management	Technician	Specialist-in-Training
11:10am – 12:00pm	Anesthetic Monitoring & Safety (Force)		Extreme Malocclusions (Fitch)	Increasing Dental Compliance for the General Practice – How to Raise Dental Revenue to 20% of Total Revenue (D. Nossaman)	Oral Tumors (Reiter)	
1:00pm – 1:50pm	Occusal Issues, Advice and Therapy (Eisner)			TRUE TALK™ - Transforming Your Work and Life Through Powerful Conversation (Jeff Thoren)	Veterinary Dentistry: Beyond the Basic Prophylaxis (Istace)	
2:00pm – 2:50pm	Periodontal Disease: Prevention and Home Care (Stepaniuk)			TRUE TALK™ - Transforming Your Work and Life Through Powerful Conversation (Continued) (Jeff Thoren)	Masticatory Myositis (March)	
Break						
3:20pm – 4:10pm	Case Presentations: Why Anatomy is Important (Stepaniuk and Eubanks)			TRUE TALK™ - Transforming Your Work and Life Through Powerful Conversation (Continued) (Jeff Thoren)	Cat's Got Your Tongue (March)	
4:10pm – 5:00pm	Dental Pearls for the General Practitioner (Lewis)			TRUE TALK™ - Transforming Your Work and Life Through Powerful Conversation (Continued) (Jeff Thoren)		
	Oral Mass Identification (March)
