GENERAL INFORMATION

ON-SITE REGISTRATION HOURS

THURSDAY

October 3

7:00am - 8:30am

1:00pm - 8:00pm

FRIDAY

October 4

7:00am - 6:00pm

SATURDAY

October 5

7:00am - 6:00pm

SUNDAY

October 6

7:00am - 4:00pm

EXHIBIT HALL HOURS

THURSDAY

October 3

Exhibit Hall Grand Opening

6:00pm - 8:00pm

FRIDAY

October 4

7:00am - 6:00pm

SATURDAY

October 5

7:00am - 6:00pm

SUNDAY

October 6

No Exhibits

REGISTRATION

Attendees will be required to sign in at the registration desk and in the lab rooms before participating in labs.

LAB TICKETS

Tickets are no longer provided for labs. Lab attendees' names will be on a sign in sheet in the lab room. Check your welcome letter for the list of labs for which you registered. To register for an available lab on-site, visit the registration desk.

CONTINUING EDUCATION CREDITS

Attendees of the Veterinary Dental Forum can earn up to 26 hours of Continuing Education. A certificate is provided in your attendee packet. Attendees must sign an attendance roster at registration for possible replacement of CE forms in the future.

NAME BADGES

Name badges will be required for participation in all sessions, workshops, laboratories and the exhibit hall. Badges will be included in your conference materials received at the meeting registration desk and are only available for registered attendees and registered guests.

BREAKFASTS AND BREAKS

NEW! A heavy continental breakfast will be served in the Exhibit Hall from 7:00am-8:00am on Friday and Saturday. Morning and afternoon breaks will also be provided in the Exhibit Hall. Join us for themed treats during the afternoon breaks. On Sunday, breakfast and breaks will be provided in Preservation Hall.

LUNCHES

Lunches will not be provided for attendees this year. Lunch time has been extended to allow attendees to visit the restaurants and shops surrounding the hotel. Included in attendee packets is a list of local vendors offering discounts to VDF attendees who show their name badge.

CANCELLATIONS AND REFUNDS

Cancellations and refunds are no longer permitted. A charge of \$50 will be assessed for each change made in laboratory selections.

PRINT STATION

To print notes from the proceedings CD, a print station will be located near the VDF Registration Desk for your convenience.

CYBER CAFÉ

The Veterinary Information Network (VIN) is once again sponsoring a Cyber Café which is located in the foyer outside Galerie rooms 1 and 4.

2012 CD

Limited 2012 VDF Seattle Proceedings CD will be available for purchase at the registration desk for \$15.00.

NO VIDEOTAPING is permitted in any sessions or labs.

DOOR PRIZE WINNERS will be posted on the memo board located outside the exhibit hall.

TICKETS* for events and labs can be found in your badge wallet.

**Tickets required for On the Cusp Breakfast/Lecture, Welcome Reception and Fun Run/Walk.*

SPECIAL MEETINGS & EVENTS

WEDNESDAY, OCTOBER 2, 2013

Review & Assessment - 6:00pm-10:00pm

Sponsored by Virbac

SALONS A-C - 3RD FLOOR

THURSDAY, OCTOBER 3, 2013

"On the Cusp" Breakfast - 7:30am-8:30am (*Ticketed event*)

SALONS D-E - 3RD FLOOR

If you registered for the Advanced lecture "On the Cusp," there will be a buffet breakfast which will begin at 7:30am.

Advanced Lecture "On the Cusp" - 8:30am-10:30am

(Ticketed event)

SALONS D-E - 3RD FLOOR

The Synergy Between Human and Veterinary Trauma Surgery
- David Powers, MD, DMD, FACS, FRCS (Ed)

The focus of the presentation will highlight the similarities between human and animal trauma, specifically focusing on the biological aspects of rigid fixation and the physiologic changes associated with bone healing. By concentrating on the lessons learned by selected cases from the human experience, veterinary surgeons can hopefully avoid potentially devastating complications for their patient population.

The guest lecturer is Dr. David Powers. His clinical interests are in craniomaxillofacial trauma and reconstruction, with a clinical focus on the management of high-energy transfer and ballistic injuries to the facial skeleton; orthognathic and craniofacial surgery for developmental, congenital and acquired facial deformities; prosthetic facial reconstruction after oncologic ablative surgery; surgical management of sleep disordered breathing (sleep apnea); surgical treatment of snoring and oral surgical procedures for the medically compromised patient.

Awards Ceremony - 10:30am-12:00pm (*Anyone may attend*)

SALONS D-E - 3RD FLOOR

AVD General Meeting - 12:00pm-2:00pm

GALERIE 6 - 2ND FLOOR

AVDT Member Only Meeting - 1:00pm-4:45pm

GALERIE 5 - 2ND FLOOR

AVDC Annual Business Meeting - 2:00pm-4:30pm

SALONS D-E - 3RD FLOOR

AVDS General Meeting - 4:30pm-6:00pm

GALERIE 6 - 2ND FLOOR

AVDT Pinning Ceremony - 5:00pm-6:00pm

GALERIE 5 - 2ND FLOOR

Exhibit Hall Grand Opening and Reception 6:00pm-8:00pm

(Ticketed event)

PRESERVATION HALL - 2ND FLOOR

FRIDAY, OCTOBER 4, 2013

AVDT Trackers Information Meeting - 7:00am-8:00am

SALONS D-E - 3RD FLOOR

Veterinary Dental Educators Meeting - 12:00pm-2:00pm

Lunch provided by Virbac

SALONS D-E - 3RD FLOOR

AVDC Open Meeting - 12:30pm-1:30pm

GALERIE 5 - 2ND FLOOR

WVCD Meeting - 12:30pm-1:30pm

GALERIE 4 - 2ND FLOOR

Equine Specialty Informational Meeting - 12:30pm-1:30pm

GALERIE 6 - 2ND FLOOR

Posters Q&A Session - 3:20pm-3:50pm

GALERIE FOYER - 2ND FLOOR

AVDT Mentee/General Interest Meeting - 6:00pm-7:00pm

SALONS D-E - 3RD FLOOR

SATURDAY, OCTOBER 5, 2013

Fun Run/Walk - 6:30am (*Ticketed event*)

HOTEL ENTRANCE - 1ST FLOOR

Started in the '80s, the run/walk has been growing and improving ever since. This is an opportunity for attendees to take a break from the educational sessions and explore a small part of New Orleans on foot. Participants can also win great prizes! More information, including the route, is provided in participants' attendee packets.

The Fun Run/Walk is a non-competitive "predicted-time" event. Participants predict their own time in minutes and seconds.

The participant who finishes closest to their predicted time will win. We have many prizes provided by our generous exhibitors and sponsors. Participants will also receive a shirt designed specifically for this event. A portion of the proceeds will be donated to the Veterinary Dental Educators Fund.

Posters Q&A Session - 9:50am-10:20am

GALERIES FOYER - 2ND FLOOR

Information Meeting for Membership in the AVDS, AVD and AVDC
- 12:30pm-1:30pm

GALERIE 1 - 2ND FLOOR

AVDC Exam Chair Q&A - 12:30pm-1:30pm

GALERIE 4 - 2ND FLOOR

Foundation Silent Auction - 6:00pm-7:30pm

GALERIE 3 - 2ND FLOOR

The Foundation for Veterinary Dentistry (F4VD) and the Peter Emily International Veterinary Dental Foundation (PEIVDF) will be hosting a Raffle, Silent Auction, and Live Auction on Saturday, October 5, at 6:00pm-7:30pm in the Fundamentals Lecture Room, Galerie 3. In addition to enjoying the fellowship of friends, there will be a cash bar. There will be many items for auction/ raffle such as veterinary CE, vacation getaways, veterinary equipment, and many gift cards. As this event will only last just over an hour, come relax, have a favorite beverage, and help us reach our goals for the upcoming year! A list of all auction (silent and live) as well as raffle items is provided in your registration packet.

SUNDAY, OCTOBER 6, 2013

Foundation for Veterinary Dentistry Meeting - 7:00am-7:30am

LABORATORIES AND SCHEDULE

SUBJECT TO CHANGE

Veterinary dentistry is a complex specialty which requires years of education, training and practice. The wet-labs and workshops offered by the Veterinary Dental Forum help practitioners to more effectively diagnose and intercept dental problems and treat or refer them appropriately. The lectures and labs (fundamental, intermediate and advanced) are designed to be educational, practical and interesting for those just getting started as well as for those well established in the field of dentistry. Tickets are no longer required for entrance in labs. Pre-registered attendees will be required to sign in at each lab.

Advanced Endodontics Various Obturation Techniques

(Goldstein) - This lab will demonstrate, compare and allow attendees to use common and various obturation techniques that will include but not be limited to; lateral and vertical compaction, warm compaction, Successful, Ultra-Fil, and Gutta Flow. Root canal sealants such as AH plus and ZnOE will be presented.
(DVMs ONLY)

Bone Implants and Guided Tissue Regeneration Laboratory

(Legendre/Caiafa) - Will cover techniques and products available to fill bone defects, close oronasal fistulae and bone augmentation around teeth. Will compare synthetic product to allogeneous products. Will also cover the use of membranes both collagenous or osseous. **(DVMs ONLY)** *Prerequisite lecture strongly suggested.*

Canine Surgical Extractions Lab I (Shope) - This lab will focus on surgical tooth extraction techniques and instrumentation in the canine patient. Participants will learn and practice flap design, appropriate use and handling of instruments, use of high speed hand piece and burs to section teeth and perform bone removal, root elevation techniques, and closure of mucosal flaps.
(DVMs ONLY)

Canine Extractions Lab II (Kressin/Honzelka) - This hands-on laboratory will cover surgical extraction of many different commonly extracted teeth in the dog. A focus will be on appropriate flap design and exposure. *Prerequisite lecture recommended.* **(DVMs ONLY)**

The Detection, Treatment, and Prevention of Periodontal Disease (Queck) - The lab will go into detail how to perform four quadrant oral charting, a thorough dental cleaning, root planing, and the correct technique for polishing. Envelope flaps will be demonstrated, as well as the technique to sharpen curettes and scalers. Multiple homecare options will be discussed and used.

Diagnosis and Treatment of Periodontal Disease and Comprehensive Dental Cleaning Techniques (Weldin) - Detection, diagnosis and treatment options of periodontal disease. Corresponding comprehensive dental cleaning (prophylaxis) techniques, incorporating the use of ultrasonic and hand instrumentation.

Endodontic Laboratory for Veterinary Technicians (Carmichael) - This laboratory will demonstrate the variety of methods used to diagnose endodontic disease as well as a variety of procedures that are utilized to treat endodontic disease including vital pulp therapy, conventional root canal therapy, and surgical root canal therapy (apicoectomy). This laboratory will focus on the veterinary dental technician's role in preparing for and assisting in these procedures and will count towards fulfillment of the required course for the VTS – Dentistry.

Endodontics I Lab: Endodontic Access (Baker/Schor)- The primary purpose of this laboratory session is to learn how to

perform an appropriate access to root canals, for the purpose of performing root canal therapy on the affected teeth.
(DVMs ONLY)

Endodontics II Lab: Canal Cleaning, Shaping, & Obturation

(Peak) - The Endo II Lab is a continuation of the Endo I Lab (Canal Access and Initial Preparation). This lab provides the basics for endodontics including: hand instrumentation of canals, an overview of the instruments used, chemical and mechanical cleaning, and obturation using basic materials such as zinc oxide-eugenol and gutta percha points. We will also introduce and have available other obturation methods such as Successful and Gutta Flow sealant and gutta percha master point. Endodontic instrumentation and obturation lectures in the Intermediate Lecture Series are strongly encouraged. Other labs will cover mechanical canal shaping and other obturation methods.
(DVMs ONLY)

Endodontics Lab III: Lightspeed Rotary Endodontics

(Boyd/McCoy) - This lab is recommended for the intermediate to advanced student who is currently performing root canal treatments and wants to learn LightSpeed LSX®, SimpliFill® and EndoVac® systems in a hands-on setting. The lab will review the instruments, materials and techniques involved in the procedure.
(DVMs ONLY) *Prerequisite lecture strongly suggested.*

Equine Incisor and Canine Extractions: Nerve Blocks, Gingival flaps, and Extraction (Neiderman/Reiswig/Duke)

- This lab will cover how to perform infraorbital and mental nerve blocks, gingiva flap design for incisor and canine teeth and surgical exposure and extraction of incisor and canine teeth.

Feline Extractions (Barthel) - A short lecture will precede the lab. Participants will then practice extraction techniques using cadavers. Ample time is available to encourage participants to extract upper and lower canines, lower molar, and one or more premolars. **(DVMs ONLY)**

Introduction to Jaw Fracture Repair (Taney) - This laboratory will focus on the four basic interdental wiring techniques for fractures of the mandible. Wire and acrylic appliance placement, symphyseal wiring, and maxillomandibular fixation will also be demonstrated and performed by the attendees. The majority of interdental wiring and acrylic placement will be performed on Sawbones™ mandibular models, with cadavers available for additional practice. The laboratory portion will be preceded by a brief lecture discussing maxillofacial trauma management.
(DVMs ONLY)

Orthodontics: Inclined Plane Lab (Gengler) – This lab will give you the ability to diagnose and treat a very common malocclusion: Linguoversion of the mandibular canine teeth. The attendee will have hands on use and application of the most recently developed materials to effectively treat this common bite abnormality by direct fabrication of a bite plate with an inclined plane.
(DVMs ONLY)

LABORATORIES AND SCHEDULE

CONTINUED...

Periodontal Treatment II (Beebe) - This lab will cover proper methods for closed root debridement, open root debridement, application of regenerative agents, apically repositioned flaps, and laterally repositioned flaps. **(DVMs ONLY)** *Prerequisite lecture strongly suggested.*

Piezoelectric Oral Surgery (Lewis/Reiter) - This laboratory will discuss principals of piezoelectric oral surgery and will allow participants to perform piezoelectric surgery on cadavers, including tooth extraction, mandibulectomy and maxillectomy. Piezoelectric surgery units will be provided by Acteon. **(DVMs ONLY)**

Prosthodontics for the Veterinary Technician (Carmichael) - This laboratory will demonstrate the techniques involved with preparing teeth for crown restoration, impression taking for crown restoration as well as the procedure for crown cementation. This laboratory will focus on the veterinary dental technician's role in preparing for and assisting in these procedures, and will fulfill the laboratory requirement for the VTS - Dentistry.

Regional Nerve Blocks for Technicians (Mills) - Attendees will learn the techniques, dosing, agents and equipment necessary to deliver effective regional analgesia. This is a hands-on wet lab complete with cadaver specimens and all equipment is supplied.

Restorative Lab: Crown Preparation (Furman/Coffman) - This hands on lab will instruct you how to perform proper crown preparation on the most common teeth in dogs. **(DVMs ONLY)** *Prerequisite lecture strongly suggested.*

Restorations Lab: "Fill" Me in on the Latest in Restorations (Peak/Smithson/Greenfield/Gaddis) - A 1-hour lecture covering the basic equipment and materials with step by step instructions for dentin bonding and composite restorations. Indications,

diagnostics, and contra-indications for restorations will be covered. Following the lecture, participants will be given the opportunity to apply dentin bonding, prepare cavity preparations, fill preparations with composite materials and finish the restorations.

Rodent and Lagomorph Dentistry Laboratory (Legendre) - Will review equipment required, oral exam technique, occlusal equilibration, Extraction intraorally, treatment of abscesses. The lab will divided into 3 stations where the registrants will spend 75 minutes at each, leaving 15 minutes for set up and rotations.

Specialists in Training: Oral/Maxillofacial Surgery (Lantz) - Will cover selected aspects of a variety of topics including surgery of the palate; fracture repair; and oral tumor resection. **(AVDC Trainees ONLY)**

Veterinary Dental Radiographic Technique Simplified (Beckman) - Veterinary dental radiography, in particular positioning, is one of the most frustrating aspects of veterinary dentistry. The bisecting angle technique can be demanding and difficult to perform consistently. Positioning the patient, the sensor and the tube head to create quality images can be challenging but is accomplished readily utilizing this simplified approach. Dr. Beckman's positioning text will be provided to each participant. *Prerequisite lecture strongly suggested.*

Veterinary Radiology for Technicians (Moore) - We will discuss indications, equipment and positioning for full mouth radiology. Most importantly, we will discuss and practice trouble shooting methods to fix radiology problems.

Wildlife Dentistry Lab (Emily/Holmstrom) - This lab will be hands on instruction in primate restorations, endodontics in large cats and beakistry, primate and large cat restoration. **(DVM's ONLY)** *Prerequisite lecture strongly suggested.*

2013 VDF PROGRAM GRID - FRIDAY LABS

PRE-REGISTERED ATTENDEES ARE REQUIRED TO SIGN IN AT ROOM TO ENTER LABS.
TICKETS ARE NO LONGER REQUIRED.

TIME	BALCONY I	BALCONY L	BALCONY K	BALCONY J	BALCONY M
7:00-8:00am	Heavy Continental Breakfast				
8:00-12:00pm	Introduction to Jaw Fracture Repair Repair (K Taney) (DVMs ONLY)	Advanced Endodontics Various Obturation Techniques (G Goldstein) (DVMs ONLY)	Piezoelectric Oral Surgery (J Lewis) (DVMs ONLY)	Orthodontics: Inclined Plane Lab (B Gengler) (DVMs ONLY)	Diagnosis and Treatment of Periodontal Disease and Comprehensive Dental Cleaning Techniques (C Weldin)
12:00-1:30pm	Lunch on your own (Pick up a list of nearby restaurants at the registration desk)				
1:30-5:30pm	Endodontic Laboratory for Veterinary Technicians (D Carmichael)	Endodontics I Endodontic Access (L Baker/C Schor) (DVMs ONLY)	Periodontal Treatment II (D Beebe) (DVMs ONLY) Suggested Lecture: Advanced Periodontal Therapy	Canine Surgical Extractions I (B Shope) (DVMs ONLY)	Bone Implants and Guided Tissue Regeneration Laboratory (L Legendre) (DVMs ONLY) Suggested Lecture: Bone Augmentation Strategies: Case Studies

2013 VDF PROGRAM GRID - SATURDAY LABS

PRE-REGISTERED ATTENDEES ARE REQUIRED TO SIGN IN AT ROOM TO ENTER LABS.
TICKETS ARE NO LONGER REQUIRED.

TIME	BALCONY I	BALCONY M/N	BALCONY K	BALCONY J	BALCONY L
7:00-8:00am	Heavy Continental Breakfast				
8:00-12:00pm	Prosthodontics for the Veterinary Technician (D Carmicheal)	Veterinary Radiology for Technicians (J Moore)	Rodent and Lagomorph Dentistry (L Legendre)	Canine Extractions Lab II (D Kressin/S Honzelka) (DVMs ONLY) Suggested Lecture Canine Dental Extractions: Principles and Techniques	Endodontics II Canal Cleaning, Shaping and Obturation (M Peak) (DVMs ONLY) Suggested Lecture Endodontics: Canal Cleaning, Shaping & Obturation
12:00-1:30pm	Lunch on your own (Pick up a list of nearby restaurants at the registration desk)				
1:30-5:30pm	Endodontics Lab III Lightspeed Rotary Endodontics (B Boyd/T McCoy) (DVMs ONLY) Suggested Lecture LSX (formerly LightSpeed), Simplifill Obturation and EndoVac Endodontics	Veterinary Dental Radiographic Technique Simplified (B Beckman) Suggested Lecture Veterinary Dental Radiographic Technique Simplified	Wildlife Dentistry (P Emily/S Holmstrom) (DVMs ONLY) Suggested Lectures Primate Dentistry & Large Carnivore Endodontics and Restorations	Feline Extractions Lab (R Barthel) (DVMs ONLY)	Restorative Lab: Crown Preparations (R Furman/ C Coffman) (DVMs ONLY) Suggested Lecture Introduction to Veterinary Prosthodontics: Crown Therapy

2013 VDF PROGRAM GRID - SUNDAY LABS

PRE-REGISTERED ATTENDEES ARE REQUIRED TO SIGN IN AT ROOM TO ENTER LABS.
TICKETS ARE NO LONGER REQUIRED.

TIME	BALCONY I	BALCONY K	BALCONY J	BALCONY L
7:00-8:00am	Heavy Continental Breakfast

Healthy Bodies Start With Healthy Mouths™

healthymouth™

Dental Care that Dogs, Cats and Equines Drink™

Stop by to meet
the muse and
examine the
poster-dog mouth of
healthymouth™ at
booths 204/206.

Ping-Pong, age
16 years young.

RECIPIENT OF SEVEN VOHC® SEALS FOR PLAQUE CONTROL

The Perfect Partner For Your Dental Practice™

Anti-Plaque Water Additive for Dogs | Anti-Plaque Water Additive for Cats
Anti-Plaque Gel for Dogs | Anti-Plaque Gel for Cats
Anti-Plaque Topical Spray for Dogs | Anti-Plaque Topical Spray for Cats
Anti-Plaque Water Additive Mobility Formulation for Dogs

Great News! healthymouth™ has gone World-Wide!

We are proud to be partnering with leading companies and Dental Specialists around the world so all your patients have access to healthymouth™

- New additional manufacturing of all products in Australia by IM3
- Now available in Australia, New Zealand, Hong Kong, China, Singapore, Malaysia, Indonesia; IM3 Exclusive Distributor • Ontario, Quebec; Fraser Hale, DVM, FAVD, DiplAVDC • British Columbia; Martin Schiebel, DVM • Israel; Dr. Hanny Retzkin • United Kingdom, Ireland, Scotland; Paul Hobson, BVet Med MRCVS • Switzerland; Phillippe Roux, Dr. med vet

Available early 2014 in Japan, Korea, Finland, Denmark, Sweden,

Netherlands, Estonia, Poland, Germany, Brazil, Spain & Russia and more to come!

(for specific information regarding esteemed Product Advocates and Distributors visit booths 204/206)

Recommended by leading board certified veterinary dentists in the USA, Canada, Europe, Asia & Australia

Patented Formula. 100% Human grade ingredients. Free of all artificial, synthetic ingredients, xylitol and alcohol.

Products you would want your own pet to ingest. healthymouth™ stands alone.

healthymouth™ is part of a comprehensive dental care program used with professional veterinary dental care.

Why would Fraser Hale (DVM, FAVD, Dipl AVDC), notorious skeptic and scary VIN consultant, get on board with Healthymouth™? Visit Healthymouth™ booths 204/206 to hear the story from Fraser himself.

AMERICAN VETERINARY DENTAL SOCIETY

The American Veterinary Dental Society
Welcomes You to New Orleans!

The AVDS is an inclusive society for general practitioners, specialists, technicians, hygienists, and anyone interested in veterinary dentistry. If you are not already a member, visit our AVDS booth outside the Fundamental Series lecture hall to learn about member benefits! Also look for Step-by-step and Foundational Compendia and scrubs for sale at the booth.

AVDS Member Benefits:

- Journal of Veterinary Dentistry
- Monthly e-newsletter
- Discount on Forum registration
- Discount on Elsevier books and Manson books
- Discounts on educational compendia, including the Step-by-Step II and Foundations Series
- Access to archives and educational handouts for clients

AVDS Dental Education Efforts:

- Student Chapters of the AVDS

Veterinary Dental Educators Distance Learning

- AVDS provides a large donation each year to support distance-based learning for veterinary students around the world.

******Reminder of Events******

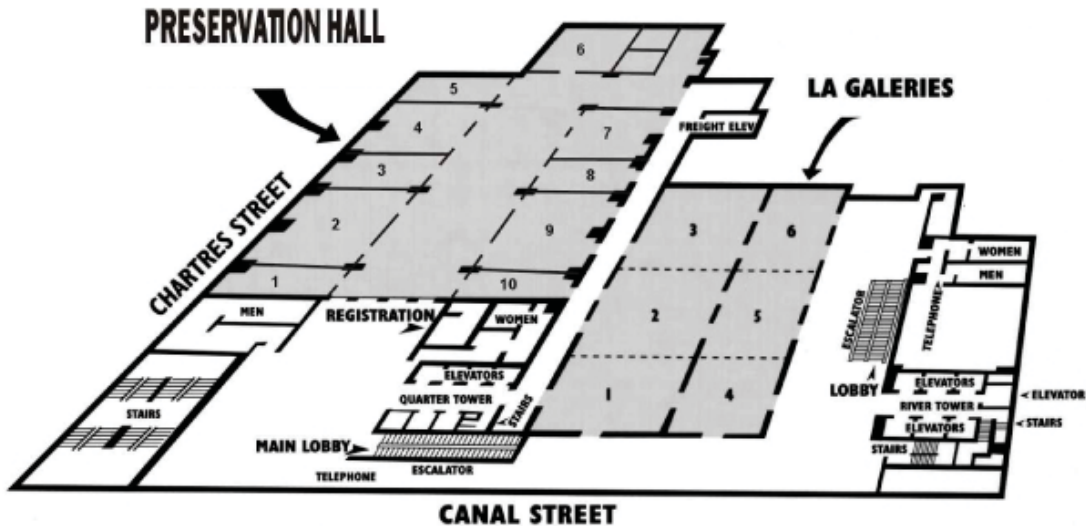

- AVDS general membership meeting ~ Thursday, October 3rd 4:30pm-6:00pm
- Fun Run/Walk ~ Saturday, October 5th 6:30am

Your AVDS Board of Directors and Officers: President (2011-2013)- Kevin Stepaniuk; President-elect (2013-2015)- Kris Bannon; Treasurer- Susan Crowder; Secretary- Carol Weldin; Past-President- John Lewis; Journal Manager- Barry Rathfon; Board members- MJ Redman, Bert Gaddis, Rod Salter, Loïc Legendre, Mike Overend, Curt Ritchie

AMERICAN VETERINARY DENTAL SOCIETY (AVDS)

FOYER BOOTH #1
PO Box 803
Fayetteville, TN 37334
931-438-0238 Phone

The American Veterinary Dental Society (AVDS) was founded in 1976 for the purpose of creating a forum – a forum for advancing the knowledge, education, and awareness of veterinary dentistry among veterinarians, students and the public. Through our efforts, we are successfully increasing awareness of the importance of this facet of animal medicine. The AVDS boasts a truly international membership with more than 1100 U.S. members, over 70 Canadian members and over 50 international members. This makes the AVDS the largest organization of veterinary dental professionals in the world. Membership in the AVDS is open to any veterinarian, dentist, hygienist, technician or individual with an interest in veterinary dentistry.

BLEED-X, LLC

BOOTH #108
2700 Freeway Blvd., Ste. 800
Minneapolis, MN 55430
763-231-8236 Phone

Bleed-X Vet Clotting Powder is the safest and most effective surgical hemostatic agent available to veterinary medicine today. The plant based powder is sterile, non-toxic, totally resorbable and easy to apply. Our exclusive formula contains a blend of Microporous Polysaccharide Hemospheres (MPHTM) and oxidized cellulose microfibers which rapidly dehydrate blood on contact, providing almost instantaneous clotting to any type of wound situation. The patented MPH technology developed by Medafor, Inc has full FDA/PMA surgical approvals on the human side for most any type of surgery including neuro applications with over 2 million uses without a single reported adverse reaction. The resealable tube pack allows vets to apply any un-used powder from a sterile abdominal procedure to non-sterile topical bleeding like nail trims and surface wounds. Use if for spays, biopsies, dentals, mass removals, skin flaps/grfts, de-claws, and amputations. It works great on exotics, senior patients with coagulopathies and for both profuse and diffuse bleeding issues. Because the powder is a blend of two polysaccharides it breaks down enzymatically in a matter of days-no foreign body reaction, no granuloma, no infections. Use it anywhere you would use gelfoams and you will see an immediate benefit! See our website for case studies, published clinical data and videos – www.bleed-x.com.

The mission of PEIVDF is to provide advanced veterinary dental services for the benefit of captive exotic animals located in facilities in the US and abroad through an increase in the provision of advanced veterinary dental services and veterinary dental education. PEIVDF began conducting Missions in October 2008, first as a private foundation, now as a public 501(c)(3) charity. In just under five years, our small charity has:

- Treated 156 animals at 12 sanctuaries during 30 missions: lions, tigers, leopards, cougars, jaguars, bears, wolves, hippos, chimpanzees, baboons, and ferrets, to name a few species
- Performed nearly 285 Root Canal Therapies, 149 unavoidable extractions, and 56 other procedures. This may seem like a lot of animals and a lot of procedures, but remember, there are more

(continued on next page)

Poor or inadequate saliva is the original hidden cause of bad breath, periodontal disease & tooth loss. Oratene® Veterinarian Brushless Oral Care (formerly Biotene®) utilizes 30+ years of Dry Mouth enzyme technology and contains two complete, natural multi-complex enzyme systems that dissolve plaque biofilm and inhibit odor-causing bacteria to help balance oral flora and restore saliva's protective abilities. Especially beneficial for pets suffering from chronic illness, on medication or seniors.

VETERINARY INFORMATION NETWORK (VIN) (SPONSOR ONLY)

777 W. Covell Blvd.

Davis, CA 95616

800-846-0028 Phone

Since 1991, VIN has been the number one online veterinary destination for veterinarians, by veterinarians. Those who don't "know" VIN, likely think VIN is a web site. But VIN members (VINners) quickly recognize that although VIN is a "site" on the "web", it is much more than a web site. VIN is a place. VIN is home to over 42,000 colleagues. Like many "sites on the web", VIN has lots of features - databases, message boards, conference rooms, online proceedings, and much more. And although those features are very useful and help busy veterinary professionals be the best clinicians they can be, providing those features is in no way what VIN is all about. Much more than the sum of its parts ("features"), VIN provides, for the first time in the history of our profession, what no other organization or service has been able to. Simply stated, VIN's greatest accomplishments are:

- Bringing together veterinarians "world-wide" as colleagues,
- Bringing instant access to vast amounts of up-to-date veterinary information to colleagues,
- Bringing instant access to "breaking news" that affects veterinarians, their patients and their practice,
- Bringing easy access to colleagues who have specialized knowledge and skills,
- Making CE - continuing education - available EVERY day,
- Empowering our profession.

The Veterinary Bone Graft Experts since 1996, VTS provides the widest variety of bone grafting materials at a price that fits your practice. In addition to our real bone allografts, we now also bring you Synergy, an innovative, smart synthetic bone graft and Fusion bone putty to meet any need or budget. Using bone graft results in faster healing and increased bone density which is invaluable in general dentistry, but also creates other surgical possibilities such as saving teeth from extraction, fixing challenging mandibular fractures and placing solid dental implants and more!
